EVENT REQUIREMENTS FOR VENDORS USING LP-GAS

LP-GAS CYLINDERS -

- Must be within 12 years of the manufacture date or within 5 years of a visual requalification date.
- Must be in good condition with no pits or rust,
 - no dents,
 - no damaged or missing collars or footrings,
 - no signs of leakage.
- Must be secured in an upright position.

HOSE ASSEMBLIES for use with lp-gas –

- Must be marked for use with lp-gas
- Must be equipped with the original fittings (no hose clamps)
- Must be in good condition with no cuts, wear abrasions, cracking (dry rot) or other damage to the outer covering.

APPLIANCES for use with lp-gas must be listed for use in the environment in which they are operated.

MOBILE COOKING UNITS must not be piped using corrugated metal tubing or csst (includes appliance flex connectors.)

CYLINDERS THAT APPEAR TO HAVE BEEN OVERFILLED OR HAVE ANY OF THE ABOVE LISTED DISCREPANCIES MUST BE REMOVED FROM THE PROPERTY PRIOR TO THE EVENT.

If you have any questions you can contact Chief Inspector Tom Nuffer at 334-241-8887 or email Thomas.Nuffer@lpgb.alabama.gov .
